Professional Summary

Cybersecurity-focused computer science student with hands-on experience in IT support, security tool development, and threat mitigation. Achieved Platinum Tier ranking in the U.S. Air Force-sponsored CyberPatriots National Competition. Built independent security projects in Python and JavaScript with a strong foundation in systems, networking, and defensive security practices. Familiar with Microsoft 365 and scripting; experienced handling technical environments with attention to detail and clear communication.

Education

Stevens Institute of Technology — Hoboken, NJ
Clark Scholar, Cybersecurity. — *Present*

Newburgh Free Academy — Newburgh, NY
High School Diploma, STEM Focus. Top 10% of Class. GPA: 3.9. — *June 2026*

Marist University — Poughkeepsie, NY
Marist Early College Program, Computer Science. — *June 2026*

Experience

Information Technology Support Specialist — Sep. 2025 – Present
Consolidated Information Technology — *Newburgh, NY*

- Assess and troubleshoot hardware and software issues reported by staff, applying systematic diagnostic techniques
- Coordinate with employers to configure and deploy laptops for on-site use, supporting endpoint security compliance
- Maintain and service computers and laptops across multiple sites, documenting issues and resolutions

Virtual Reality Game Design Instructor — July 2025 – June 2026
Newburgh Armory Unity Center — *Newburgh, NY*

- Taught VR game design lessons to elementary and middle school students using Unity and Oculus
- Set up, configured, and troubleshot VR hardware and software for classroom sessions
- Guided students through beginner programming and interactive design activities

Projects

Anti Keylogger — Jan 2025 – Feb 2025
Python

- Developed a security tool to detect keylogger files by scanning and inspecting system directories
- Implemented automated file analysis workflows to flag suspicious behavior and infection patterns
- Applied malware detection principles and defensive cybersecurity techniques throughout development

Pester Password Checker — Dec 2024 – Feb 2025
HTML, CSS, JavaScript

- Built a web-based password strength evaluator with real-time feedback for users
- Implemented front-end logic to validate password complexity based on security best practices
- Generated actionable suggestions to help users improve password strength

Activities & Leadership

CyberPatriots — Sep 2023 - Jun 2026
Captain

- Led a competitive cybersecurity team at Newburgh Free Academy in the U.S. Air Force-sponsored CyberPatriots National Competition; achieved Platinum Tier ranking by securing Windows systems and resolving vulnerability challenges; applied system hardening, command-line tools, and threat mitigation strategies in a timed, scored environment

Student Council — Sep 2022 - Jun 2026
Senior Class President

- Elected Senior Class President (2025-2026) after three years of involvement; lead senior class initiatives, organize school-wide events, and manage student communications; collaborate with administrators to plan senior programming

Skills

Cybersecurity: System Hardening, Vulnerability Analysis, Threat Mitigation, Malware Detection, Security Monitoring, Command Line, Networking Basics, Windows OS
Languages: Python, Java, JavaScript, HTML, CSS, C++
Tools: Git, Microsoft 365, Visual Studio Code, Unity, Oculus/VR Systems, Replit, Scratch
Frameworks: Node.js
Other: IT Troubleshooting, Security Documentation, Technical Communication
